Kota Pro™ Clear Print Heat Transfer Material

KOTAPRO™

If you're creating designs for light-colored fabrics, you need to try the new Kota Pro™ Clear Print. It delivers a feel that's similar to screen printing with an eye-catching transparent finish. Print your designs directly onto the adhesive - eliminating the need for transfer tape.

Intermediate Calendered Permanent Vinyl & Overlaminate

235 MotoMark® LSE GRIP Matte High-Bond Vinyl

This film has a unique high-bond adhesive designed for the powersport graphic and decal market. Have confidence that your custom graphics and decals will last when applied to low surface energy (LSE) plastics. Don't forget to pair this film with the 238 MotoMark® ARMOR overlaminate for the highest level of protection.

OUTDOOR DURABILITY: 5 Year
FILM THICKNESS: 3.4 mil
OVERLAMINATE: GF238 MotoMark® ARMOR

FINISH: Matte
ADHESIVE: Extremely High-Tack Clear Permanent
LINER: 90# PE-Coated Kraft
CONFORMABILITY: Flat, simple curves

Common Applications:
• Partial Wraps
• Powersport Vehicles
• Outdoor (long-term)

Sign Supplies

Sef FlexCut SBB

This material is essential when applying graphics to dyed materials. The sublimation-blocking barrier (SBB) is formulated to block any ink migration into the heat transfer material. Without this key feature, heat-applied graphics will take on a light hue of the color material it's applied to. The material also has great opacity when applied to patterned material.

Heat Press Temp:	265° F/129° C	Pressure:	Medium/High
Peel:	Cold	Print Direction:	Reverse

• Vehicle Magnets (.030" Only)

MuscleMag® Latex

If you're using a latex printer, MuscleMag®
Latex is the product you need to use.
This high-energy printable magnetic material is specially formulated to be very thin to allow for smooth feeding and easy cutting while having a stronger holding power than a refrigerator magnet. MuscleMag® is perfect for vehicle signage and other signage and graphics applications that require thin but strong magnet material.

Muscle Mag White Magnetic Latex Film		
Size	**Thickness**	**Part No.**

Permanent Holographic Film

GF765 Rainbow Holographic Film

This holographic film will create a unique look for decals that can't be duplicated with normal vinyl.
This film has a permanent adhesive and is printable with latex, UV, solvent, and eco-solvent inks common to wide format digital printers.

GENERAL FORMULATIONS

OUTDOOR DURABILITY: 1 Year
FILM THICKNESS: 6.0 mil
OVERLAMINATE: GF108, GF110, GF231, GF242 or GF400

FINISH: Holographic Film
ADHESIVE: Clear, Permanent
LINER: 90# Kraft
CONFORMABILITY: Flat, Simple Curves

Common Applications:
• Decals/Stickers/Labels
• General Signage
• POP/Retail
• Window Graphics
• Indoor/Outdoor (Short-term)

765 Holographic	
Film	Part No.
30" x 150'	GF765-30
30" x 75'	GF765-3075
60" x 150'	GF765-60
60" x 75'	GF765-6075

Note: 60" rolls will have a "shim line" in the center of the roll and a less noticeable, repeating, line every 12" across the width of the roll. To create the holographic look, the film goes through an embossing process. During this process, one or more metal shims are mounted around the circumference of a round embossing cylinder leaving behind a visible line on the material surface. This is common in most holographic films and is not considered a defect.
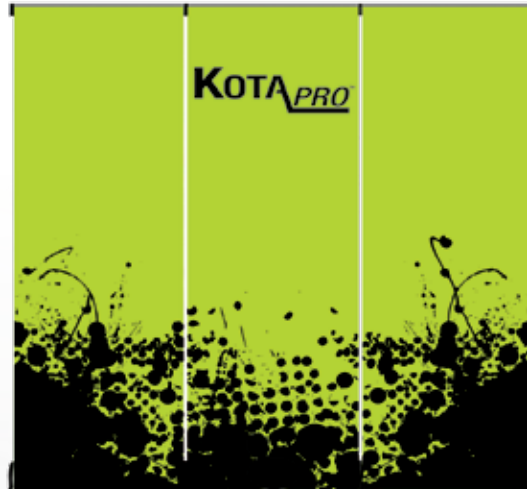

Kota Pro™ Mag Pro Banner Stand

Use this stand in its traditional form or use the top rail inserts to connect your stands together and form a wall of graphics. The stand also provides more visibility of the inserted graphic as it comes out of the front of the stand instead of the top. Easily adjust the tension on this stand to make setting up or changing graphics a breeze. Backed by a 100% quality guarantee, trust this classic design to deliver the dependability and profitability you've come to expect from the Kota Pro brand. Designed for interior use only. **Banner material is sold separately.**

Sign Supplies

PLASTICADE® Sign Frames

Rock-It™

- Square 1.75" plastic signpost with a durable, thick-walled plastic sand-fillable base
- Rock it back and roll it easily with durable plastic wheels
- Thick-walled plastic bases won't chip, crack or crumble
- Conveniently placed large fill hole and drain hole
- Withstands strong winds without tipping over when filled with dry sand
- Sign-mounting hardware is included

Sign Not Included

Great for Direct Print!

Rack Star UV Rail System

The Rack Star UV Rail System features low profile corner brackets, six interchangeable rails with rounded pins and two frame styles.
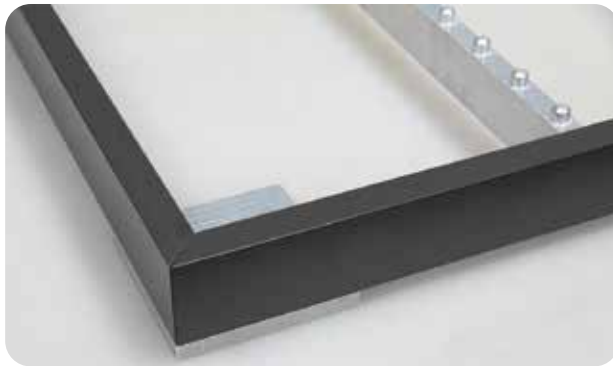

RACK STAR™
U.S. PATENT NO.
9,902,019

Low Profile Rail System for UV Print!

Part No.	Description	Size
RS2418UV	Rack Star for UV Printer	24" x 18"
RS2820UV	Rack Star for UV Printer	28" x 20"

Rounded Pins

The four Seklama Mat squares peel and stick to each foot, then peel for placing it on your bed. These help hold your frame in place without the need of drills or permanent fixtures to your print bed.

Gain Efficiencies by Engraving or Printing More!
